

Business Administration—Human Performance and Systems Management

School of Professional Studies

PROGRAM DEFINITION

The Human Performance and Systems Management option provides a sophisticated general business education and prepares graduates for entry and mid-level supervisory and management positions. Peru State College's Human Performance and Systems Management option is unique in its emphasis on the development of advanced computer skills, which in turn gives our graduates an advantage in the job market. This program is also available on line as well as on campus.

PERU STATE'S POINTS OF DISTINCTION

- Faculty are experienced practitioners as well as experienced educators.
- Students gain experience in managing systems and managing employees.
- Peru State College has updated the traditional business management program to prepare students for business careers in the information age.
- All courses are offered online and on campus.
- Instructional format permitting students personal and extended contact with faculty and individualized guidance during throughout all coursework.
- Each program at Peru State College is reviewed on a continual basis and coursework is updated to meet industry standards.
- Students completing a degree at Peru State College are prepared to attend the nation's top graduate schools in all program areas.
- Minor in a subject area outside of the major is simple at Peru State and can broaden the scope of knowledge and can improve employment prospects for any student.
