

Navigating Between Courses

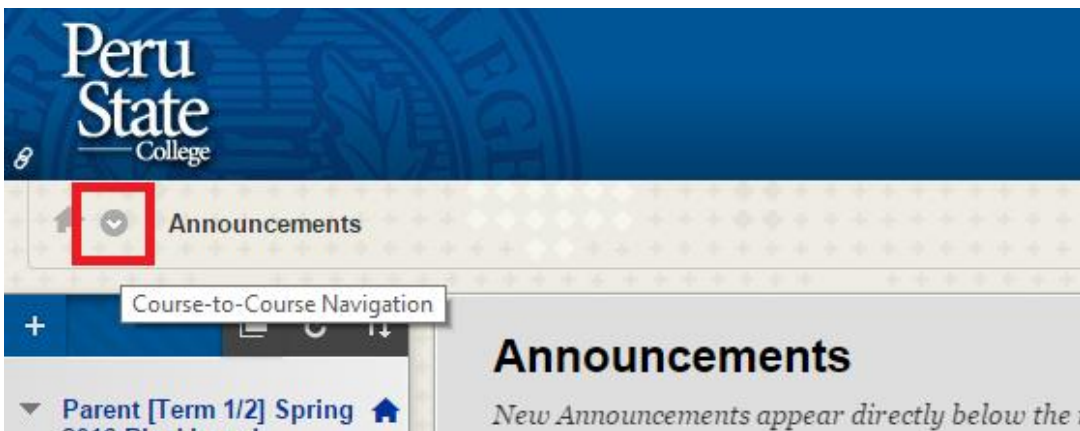

Blackboard has the capability to move between your courses without going all the way out to the “My Courses” tab each time. This is a great time-saving feature for both faculty and students.

To utilize this feature, follow the process below:

1. Mouse over to the navigation bar in the upper left-hand corner of the screen.

2. Click on the chevron (down arrow) between the **Home** icon and “Announcements”

3. A list of your courses will appear. Select the course which you would like to navigate to.

Note: when navigating from one course to another, Blackboard will take you to the same page in the corresponding course. For example, if you were on the "Announcements" page in your first course, you will be directly to the "Announcements" page in your second course.
