

Blackboard 9.1, Service Pack 11 Update: *Textbox Editor*

One of the most prominent design changes with the service pack update is the textbox editor. The function is the same with a few additions. If your textbox editor does not look like the images below, you need to expand the rows by clicking on the two down-arrows on the far, top right. 

Where to find:

Added features (students will have these options as well; therefore, you may see an increase in emoticon and symbol use):
