Welcome Gretchen!

The following report is about you and was created from your survey responses. It’s designed to support you and ensure your success.
Earning the Grades You Want

Your Strengths & Weaknesses

✔ Basic Academic Behaviors - You have excellent academic behaviors! These skills typically lead to good grades; keep up the good work! It is important to sustain your current level of performance throughout the entire term. Tip: Talking with your instructors is a proven way to get the most from your classes! At any point you need help, contact your campus connections (i.e. faculty/staff members) (see the list at the end of this report).

⚠ Time Management - You have fair time management skills, but to achieve good grades you will likely need to improve them. It is important to organize your time and to keep academics high on your priority list. Did you know that good time management skills are linked to higher GPAs? Improving your skills will allow you to be more efficient with your time and more effective in achieving good grades.

✔ Academic Self-Confidence - You have high confidence in your academic abilities. Feeling confident will help you persevere on projects even when there are challenges. Confident students are also more likely to connect with their instructors and get the most out of each class. They also tend to earn higher grades.

✔ Class Attendance - Congratulations! You understand the importance of class attendance. Many students don’t realize that attending every class is crucial to academic success in college. Did you know that students who miss a class every once in a while earn an average GPA nearly a letter grade lower than students with perfect or near perfect class attendance? Furthermore, it is important to be active in class. Being mentally present in the class is just as important as being physically present.

⚠ Course Difficulties - You’re struggling in a course. Most students do encounter difficulties from time to time. It is important to talk to that course instructor today. Don’t wait. To achieve the grades you expect you must take action now!

Tips on Improving

✔ Create a Study Group - Assemble a group of other students in your classes who can study together, provide feedback on work, share notes, and motivate each other to do well in the class.

✔ Talk to Your Instructors - If you’re struggling in a class, contact the instructor immediately and discuss steps you can take to improve your performance. Make an appointment with your academic advisor to discuss available resources, such as tutoring and study skill seminars.

✔ Take Personal Responsibility - Make a commitment to practice good academic behaviors such as attending all classes and completing assignments on time. Get a planner or an app that allows you to record assignments and due dates to help manage your time and class demands.

✔ Take Advantage of Campus Resources - There are many resources on campus that can help you overcome academic hurdles. Please see the list of campus resources at the end of this report.
Connecting with Others

Campus Involvement

Sense of Belonging

Your Strengths & Weaknesses

✔ Campus Involvement - You want to be involved on our campus? That's great news! We love your enthusiasm. Getting involved is a great way to make the most of your college experience. The foundation for success extends beyond the classroom; the opportunities and experiences provided by campus activities are as important as your classroom experience when it comes to your future success.

✔ Sense of Belonging - It's great news that you feel connected on campus! Remember that there are always new opportunities to make friends and build new relationships through student organizations, intramural sports, and community service projects!

Tips on Improving

✔ Connect - Making connections with students, faculty, and staff often takes time and effort. Reach out to others who may be struggling to make a connection and be open to building friendships with those who reach out to you.

✔ Create a Club - If our institution doesn't have a club or organization that matches your interest, consider developing one. Contact our student activities/student life office about how you may be able to do this.

✔ Join In - Consider joining a social/professional organization, activity, or intramural sport. Or, volunteer your time to a cause that is important to you.
Your Strengths & Weaknesses

Financial Confidence - To stay in college you have to pay for college, and if you're a little unsure of how you'll pay for next term's tuition and fees, you're not alone! Don't wait; contact the financial aid office for help right away. There are people here who can help you find ways to meet your financial needs. A list of campus resources is provided in this report to help you along.

Tips on Improving

Schedule an Appointment - Make an appointment with the financial aid office to discuss available assistance.

Reach Out - Reach out to one of your campus connections (see the list of campus connections at the end of your report). They will help direct you to the appropriate person or office that can provide your with information.

Explore Options - If the stress of financial issues begins to affect your academic focus and performance, please speak to your campus connections (see the list of campus connections at the end of your report), a counselor, or an advisor before you become overwhelmed.
Taking Action

Now it's your turn! We challenge you to develop steps to improve your current behaviors and become a more successful student. In this report, we have indicated areas of strength with green icons and areas with potential for improvement with yellow or red icons. We have also included a list of campus resources to help you improve your areas of weakness and further build upon your areas of strength.
