

PrepStep is a collection of tutorials, practice exams, eBooks, flashcards, and articles to improve learners' skills for academic and career success.

A direct link to each of the eight centers is listed under the sidebar navigation on the library's website. The links are also listed on each research guide.

The Centers

College Success Skills

Build the foundational skills that are vital for success in college and in life. This center covers topics such as time management, multitasking, classroom success skills, research skills, getting academic support, and personal success skills such as money management and health.

Core English Skills Review

Strengthen your reading, writing, and grammar skills, build your vocabulary and improve your spelling skills using the interactive tutorials, practice sets, eBooks, and articles in this center.

Core Math and Science Skills Review

Need a little help in math? This center provides support for developmental math, algebra, geometry, calculus, and more. It also includes biology and chemistry practice and eBooks.

Basic Computer Skills

Do you need to learn the basics of Microsoft Word, Excel, PowerPoint, or Outlook? These video tutorials are a quick and easy way to build the proficiencies you need.

Recursos para Hispanohablante

Resources for Spanish Speakers (English Translation)

This center provides students with resources in Spanish, to improve their basic skills, earn a GED® credential, or become a U.S. citizen.

Grad School Admissions Preparation

Prepare for the most popular graduate school entrance exams with authentic test practice for the GMAT®, GRE®, LSAT®, MAT®, and MCAT®.

Career and Workplace Preparation

Are you preparing for a professional licensing exam? Are you curious about a particular occupation or looking to build your workplace skills? The resources in this center will help you shine in the workplace.

Includes: PRAXIS Core, teaching, law enforcement, caseworker, military, nursing, homeland security, etc.

Placement Test Preparation

Taking the time to prepare for college placement tests is the smart way to improve your scores and reduce the likelihood of being assigned to developmental courses.

Includes: CLEP, COMPASS, ASSET, and ACCUPLACER
