“...when great wings tilt low over contours of grass ..”

from NORTHERN HARRIER  
by Twyla Hansen

Nebraska State Poet Twyla Hansen and Spring Creek Prairie Audubon Center invite you to celebrate nature, birds, and National Poetry Month with us and several amazing local poets at our first ever **Words 4 Birds!**

We'll start the day with two great writing workshops, one for kids led by Professor Bill Clemente from Peru State College, and one for adults led by Roy Scheele, Poet in Residence at Doane College. After the workshops we'll have a "bring-your-own" picnic on the prairie. The day will finish up with readings by local poets Hansen, Clemente, Scheele, Amy Plettner, and more. Workshop participants both young and old will also be welcome to share their recently written poems. It promises to be an inspiring day on the prairie filled with words & birds!
