This survey is designed to assess student perception of a hybrid course. A hybrid course has two student groups; one composed of the group of students who meet in the classroom, and the other the group of students who only participate online. This type of course format requires all students to complete online work, regardless of whether they are on campus student or an online only student. All survey results will be kept strictly confidential and used only to provide collective information on overall student perceptions of hybrid classes.
